LEV SELEZNEV  
front-end developer

After eight years of successful work in sales I decided to change the profession. For the last year I have learned web development skills and applied them in practice. So far I have implemented few responsive websites and landing pages. My goal is to continue to grow professionally in this direction.

EXPERIENCE

Freelance

frontend developer  
September 2022 – present

- Accomplished an adaptive website for a lawyer from concept through deployment.
- Creation of UX and UI design based on the needs of the client.

Study and Practice

September 2021 – September 2022

- Have studied in practice HTML, CSS and Javascript language.
- Strengthened my knowledge in Javascript and have learned how to make flexible and adaptive design.
- Learned the basics of the Vue.js framework on several pet projects.
- Consolidated my knowledge by making 4 completed websites.

Xiaomi Shop

retail manager  
January 2021 – February 2022

- Stable overfulfillment of sales by 20% of the set targets.
- Forecast sales and maintained proper inventory levels.

Megafone Retail

retail manager  
April 2018 – December 2020

- Consistently and profitably met sales quotas through expert management and leadership of the sales team.
- Introduced new techniques to the team to motivate and build rapport.

MTS Retail

retail sales associate  
May 2016 – April 2018

- Fulfilled all sales duties in a busy sales outlet.
- Exceeded sales targets by 10% per month.
